

# WHERE HAVE ALL THE LEFTIES GONE?

## BOB CROW - THE LEFT'S LOST LEADER – FONDLY REMEMBERED AT TOLPUDDLE.

*It is only now that we are against the Tories and that you see that we could have mobilised unions to protect their staff much earlier – on the buses as well as the trains.*

Crow would have ensured transport staff would have looked after their members a lot better than the present leadership has. Would he had allowed 17 members of his union to have died without action? No chance.

Of course his Brexit support was a major flaw, and his TUSC was same old old but... he was a decent working class geezer.

You can always tell a good agitator and Bob Crow certainly was one. When he appeared on Question Time he'd start off as pantomime leftie but emerge with cheers and applause from an audience who thought they'd hate him. He'd make the ideas of the Left seem common sense. My mum and dad added him to Skinner and Benn as the ones they'd stay up to watch on Question Time, and Arthur of course.

I watched Bob Crow march at Tolpuddle on a sunny day dancing gleefully in front of the RMT brass band – he was in his element, a cross between the glowing pride

of his union and a kid whose christmases had all come at once. He was of the class, by the class and for he class. He was absolutely at home with working class people in a way Corbyn could never be.

The Labour left will stick with Harmer and Angela Rayner cos if not the dread Blairites will return.

Outside the left, there isn't even a Tommy Sheridan or George Galloway on the horizon. Maybe we can expect another Left Unity, Andrew Burgin's been posting photos of them recently.

Of course, as anarchists, we have no need for leaders, but dancing in the street with Bob Crow is another thing!

**Cheers mate.**

## PICK FOR BRITAIN!

*Useless George Eustace morphs into Pol Pot as he calls for workers on furlough to "bring the harvest home", in echoes of Cambodian Leader Pol Pot.*

Since it is Eustace's own party's immigration rules that ban foreign pickers from Bulgaria and Romania that's a bit fucking strong.

Early arrivals at Eustace's own farm were surprised to be kitted out in neat blue cotton uniforms then forced to hand over their books and glasses which were smashed in front of them. They were then marched off to the tune of the Cambodian Army Band playing the old classic "high ho high ho its off to work we go".

Mr Eustace said it was a remarkable demonstration of Briton's strength and resourcefulness and that after a previous plea for Britons to join the fruit picking work force saw just 112 people take up roles out of 50,000 applications it was about time some British spirit was drilled into them, neatly avoiding having farms offer an incentives such as a living wage.

One furloughed worker, garden centre manager Mr. Paul Pottingshed welcomed the Pick for Briton Camps that were springing up, he told us "There is nothing more British than slogging away all day to line sir's pockets. I'm just happy to get out the house to be honest, I just wish they clean the portaloos, atleast once a week?" shortly before being march around the rear of the barn.

*Loud bang off camera...*

# HORROR-SCOOPES FOR BILLIONAIRES

## ARIES

You made a fortune with that record label and then started an airline. Your chart suggests that your luck has run out. No matter whether you hide on a Caribbean island, on your space craft or in a hot air balloon your chart suggests your businesses are about to crash, you exploitative bastard. The rising of mars in your chart suggests the airline industry might not be so productive in the future. Say goodbye to your fortune.

## TAURUS

Your name sounds like cheap perfume you grubby little entrepreneurial scum. As people gaze up at your satellites all in a row your chart suggests a future where people have had enough of flashy rich wankers. No one likes a smart arse and no one likes you, mush.

## GEMINI

You thought you were clever running a book delivery services that priced independent bookshops out of the market and then you exploited your workers by paying them a pittance and denying them their labour rights. Venus suggests record numbers of warehouse staff joining unions. A strike is coming and you're in the way dickhead.

## CANCER

Getting rich by selling vacuum cleaners got you a knighthood. Just when you thought you'd hoovered up the opposition the virus caused a recession. The future looks bleak but bleak for you is fucking cushy. Your sort lead a charmed life until the mob call round. A knock on the door is predicted. Followed by a knock on the head.

## LEO

Running a polling company means that you are the opposite to me. Whereas I predict the future, you set questions to get the result you want for the Tory Party and the newspapers. So answer me this? Why are you such a cunt? Mercury descending in your chart suggests a new type of polling as people vote with their feet. Best not get in the way eh?

## VIRGO

You thought it was alright to buy up the steel industry and then just close plants, destroying lives and livelihoods, whole communities. The sun in your chart indicates a bit of heat coming your way. You see the workers don't really need you because you don't actually do any work. The runes suggest an economy run by the workers and no place for scum like you.

## LIBRA

Making a fortune from a daily newspaper and some adult titles has given you a lovely little retirement. Or so you thought. Your chart doesn't look good I'm afraid. After the pandemic comes the reckoning. The crystal ball shows a man in torment, never knowing if his past will catch up with him. It will.

## SCORPIO

You thought you'd keep your sports clothes shops open in lockdown as if it's essential work. You wanted to keep your workers at risk from the virus just so you could keep making cash. The moon in your chart suggests a bit of rough and tumble coming your way. It's alright though, you sell gum shields.

## SAGITTARIUS

As if the world ever needed a Brexit loving pub chain owner. What did we all do to deserve you? Thankfully it looks as if justice is on the way. Your chart indicates a new economy where local independent boozers are valued higher than your standardised bollocks. Fucking mullet on legs.

## CAPRICORN

You got rich but that wasn't enough. You then decided to spray yourself orange and run the world's only superpower, really badly. You are hated everywhere. You talk crap and you think the sun shines out your own arse. In fact the sun indicates in your chart something you'll find more frightening than the virus – blue collar Americans rising up against you.

## AQUARIUS

Newspapers, TV channels, Movie studios: you own it all you greedy twat. You just want all the pie. The crystal ball looks forwards it's true but it also looks backwards for inspiration. Remember when people like you had the dignity to fall off yachts? Lightning can strike twice.

## PISCES

How many shops have you destroyed and yet still stayed so very fucking rich? You ripped off your cleaners too. The runes aren't looking good, pal. When Class War sends someone like you into administration it means more a bit more than just restructuring your company.
